

PRICING : J2ME Games / Applications

1. What you (can) get:

We offer older games and lifestyle / fun applications for a one time fee! Besides some first generation games this is the first and last chance to get our top selling lifestyle applications for an incredibly low price!

All J2ME games & applications are available at least in 2 languages (with one or two exceptions), some of them are even available in 10 or more languages. For newer applications there is additional promo material like video clips. Refer to tech specs for delivery details.

2. That's the price

The Pricing Table can be found on Side II due to size!

3. Special conditions

Above prices are for the license as defined in the "LICENSE.PDF" sheet which also can be found in this presentation package. If you

- don't need such an extended license and only want to have limited conditions
- only are active in low price regions
- have any other reason why you think a lower price would be justified

you can apply for special conditions, using the "SPECIALCONDITIONS.DOC" form also available in this package!

4. Payment / Shipment

Content will be delivered AFTER the payment has arrived on our account. Smaller packages (below approx. 1 GB) are delivered by Download (via FTP or HTTP), bigger packages are shipped on DVD. Standard delivery should last between 5-8 days.

- Shipment of smaller packages will be charged with € 50,-
- Express delivery will be charged with extra € 50,-
