Title: Las Vegas Slot Machine

Brief Desc.: A slot-machine with hold and gamble for your mobile. Play the one armed bandit and make a fortune...

Full Desc.: Get yourself a gamble-machine onto your mobile phone. Here you can bet your winnings to win a virtual fortune - without the risk to loose your last penny. The objective is to multiply your bet. This happens whenever you find three of the same symbols next to each other. You can call up a table containing all symbols at any time.
If any two symbols appear in one line, you have a 'hold'-chance: You can lock any slot and try again without a new bet. If you win, you get another chance to increase your winnings. In this game you must press a key in the right moment.
