

**ID:** 51029**Title:** Screen Robber**Brief Desc.:** Defend the screen against evil aliens. Lubricate the canon and fighting the screen robbers.

Full Desc.: In the centre of the game there is a screen that shows a picture. At the beginning of one level the picture is covered with grey bars at 50%. From above monsters come that are smashed at the screen- with every monster one more grey bar disappears.

You can prevent this by shooting down the monsters soon enough. They drop a bomb or an energy ball. If you are hit by a bomb, one bar is added at the screen. If you can collect an energy ball (you can only hold two of them at most) and take it to the left margin, one grey bar disappears.

You have mastered one level, when all bars are gone. If the picture is totally covered with bars- GAME OVER.
